September, 2025

We recently completed a major construction project of a prime location luxury dwelling to include double story rear extension, loft conversion and a total interior reconfiguration to create bespoke space for the Clients.

JPD undertook all aspects of construction works, from demolition to structural and internal fit out works. All in coordination with a highly talented team of architects, engineers, interior and landscape designers, as well as specialised contractors. The result is a tailor-made house that will serve the family for future generations.

Collaborated with Bubble Architects & Estuary Quantity Surveying.

## Luxury Home Completion in North London

## New Project - NW8

Excavation of a basement beneath the front driveway adding new functional space; full high end bespoke internal renovation of the house; relocation of the main entrance from the centre to the left-hand side of the property with associated relocation of front door and steps; enlargement of existing dormers and adding roof lights to the existing roof; and new front gates for vehicular and pedestrian access including a new central pier.

## Launch of Motus London

Drawing on its vast expertise in property, JPD have launched MOTUS LONDON, a dedicated relocation advisory practice.

Motus offers complete, end-to-end support for UK property investment and relocation.

## Success Stories

"We're delighted to share that the team at JPD took on the incredible Three Peaks Challenge, raising an amazing £3,361 and surpassing their original £2,500 target. Their fantastic fundraising efforts will go directly towards supporting Lymphoma Action's vital lymphoma-specific information and services,. A huge thank you to everyone involved for their commitment and generosity."
