## New Scheme - Rodenhurst Project SW4

The Rodenhurst Project is an exciting nine-unit internal fit-out development commencing in March, delivered to an exceptional contemporary design standard with a strong emphasis on quality and refined detailing. We are proud to be working in close collaboration with Kinland as the developer, supported by a fully appointed professional team to ensure a seamless and carefully managed delivery from inception through to completion. A beautifully curated show flat is scheduled for unveiling in July 2026, setting the tone for the development, with full project completion targeted for October 2026.

## West Heath Road, Hampstead

We recently completed a magnificent reinstatement project at a well-known Grade II listed residence on West Heath Road, previously featured in a famous British movie, restoring the home to its former glory after a significant water leak. Spanning three floors, the hallway underwent a full High-spec redecoration with a refined and luxurious finish that honours the building's heritage.

Bespoke digitally printed wallpaper was specially commissioned and masterfully installed, creating a rich visual statement that elevates the space from the moment you enter. The ceiling became a true showpiece, with ornate Lincrusta plaster panels painstakingly recreated by hand, delivering seamless craftsmanship and breathtaking detail. Specialist artist finishes were employed to discreetly camouflage radiators, light switches, alarm panels and sensors, elevating the purity of the design.

The magnificent oak staircase was revived through professional French polishing, revealing its original deep, lustrous tones and a flawless sheen. Completing the transformation, a beautifully handmade carpet was installed throughout, adding warmth, texture and understated opulence to this elegant Hampstead home.

## New Partnership

JPD Corporation Ltd is delighted to announce a new partnership with ABC Consulting led by Andy Butler. A dynamic platform dedicated to fostering meaningful relationships and powerful synergies within the construction industry. With a mission to unite professionals — from architects and engineers to contractors and suppliers — ABC Consulting has created a vibrant, collaborative community where innovation thrives, and opportunities are unlocked through genuine connection. We look forward to working closely with ABC Consulting and contributing to a network that champions quality, creativity and sustainable growth within the construction industry.

## Wentworth Cottage NW7

Estefania Dorda, our in-house Interior Designer, has been instrumental in shaping the vision and presentation of our recent projects, producing high-end CGI visuals that bring each concept to life with clarity and sophistication. One of the projects she is currently developing is Wentworth Cottage, NW7, where works have reached the second fix stage, with internal finishes underway and bespoke joinery installation scheduled as part of the next phase of works.
